INTERNSHIP EXPERIENCE

University of British Columbia - Digital Solution (Faculty of Medicine)

Undergraduate Academic Assistant

May 2025 – August 2026

Vancouver, BC

- Assisted as a liaison for the Digital Solution and Data Management cross units, **eliciting functional and non-functional requirements through 5 business cases**, resulting in comprehensive documentation of operational workflows.
- Partnered with **Data Analysts to define and implement security & Oracle SQL data schema requirements, enhancing data integrity, authentication and authorization** through institutional identity provider integration within **Oracle Cloud Infrastructure and Oracle APEX**.
- Prepared the **Annual Impact Report** by analyzing operational data, ensuring results and acceptance criteria were accurately documented and clearly communicated to **AV Operation Team Lead**.

University of British Columbia - Digital Solution (Faculty of Medicine)

Undergraduate Academic Assistant

May 2025 – August 2026

Vancouver, BC

- Delivered real time support for Faculty of Medicine staff for **teleconference support**, ensuring on-time session delivery across **4 sites in British Columbia**.
- Constructed a centralized knowledge base consisting of **1 main workflow manual, 5 support guides, and other enhanced Visio visuals on Confluence and Jira taskboard**, improving training consistency for **10 new student hires**.
- Provided extensive training for **10 student hires** by training them on **audio & visual systems** across **7 faculty facilities**, reducing standard onboarding time by **one week**.
- Scheduled and coordinated virtual meetings**, connected AV rooms, and conducted pre-meeting system checks, ensuring seamless hybrid meetings with minimal technical disruptions.

Sep. 2024 – May 2025

University of British Columbia - Chapman Learning Commons

Project Assistant

Vancouver, BC

- Managed daily email inquiries regarding campus resources** and IT-related services, delivering prompt and accurate information to support the university community.
- Provided troubleshooting for CLC space equipment including **over 40 Window PC and Mac stations, printers, and desktop applications**; ensured optimal functionality while escalating hardware defects within established timelines on **Service Now**.
- Authored **20+ FAQs and 3 user manuals for CLC recording studio technology**, strengthening internal knowledge resources and supporting staff in troubleshooting complex, time-sensitive technical inquiries.

VOLUNTEER & COMPETIONS

Chapman Learning Commons, Art Peer Academic Coaching & Peer Academic Advising

Liaison Committee Volunteering.

Sep. 2025 – December 2025

- Documented key points from **monthly meetings from 3 cross departments** and communicated updates to student staff, enhancing faculty collaboration and ensuring efficient communication flow.
- Collaborated with **CLC student teams to facilitate events and manage logistics**, including budgeting and cross communications, resulting in smooth event execution and optimized student engagement.

Protelicious Startup - IT infrastructure Consultation

Case Write-up Competition.

Sep. 2024 – May 2024

- Partnered with cross-functional teams to **conduct stakeholder interviews, translating insights into clear functional and non-functional requirements and guiding solution exploration**.
